

Private Golf Club Selects Total e Golf

Carrying Place Golf and Country Club is the newest addition to the Total e Golf community

Toronto, Ontario November 26, 2009 - Total e Golf is pleased to announce the signing of the beautiful Carrying Place Golf and Country Club to its state of the art software platform. Built in 1958, Carrying Place is a private club with a gorgeous clubhouse overlooking their tranquil country setting. With a challenging golf course that stretches over 125 acres of gently rolling terrain, mature trees and manicured greens, the club has been at membership capacity for many years.

Carrying Place for years used software that was built with older technology but felt it was time to upgrade to a more progressive platform. "We were looking for a company with new technology that could help us manage our membership more effectively and still provide us with controls. Total e Golf is great fit for our facility and their staff has really responded to our needs ," said Joe Macrito, General Manager.

"Carrying Place is one of Ontario's Hidden Golfing Gems," says David Spylo, Director of Golf Operations at Total e Golf. "They have an active membership that really enjoys playing golf and we are very excited to partner with them. It was very easy for us to give their membership easy access to booking rounds over the web and to assist their staff with improved processes in the pro shop."

About Total e Golf:

Total e Golf is a fully-integrated software suite that gives golf course operators the ability to manage their operations to their total potential. Total e Golf delivers comprehensive business management solutions for numerous golf facilities including Wooden Sticks, Cardinal Golf, Golf North, Wooden Sticks and John Daly's Thundering Waters.
