

Total e Golf Launches Their Agency Program Across North America

The Agency Program gives golf course employees new opportunities in the off-season

Toronto, Ontario March 24, 2009 - Total e Golf has announced the launch of their Agency Program to help golf course employees earn money in the off-season, while expanding their skill sets.

The Agency Program allows Total e Golf to work with golf course employees to sell, distribute and install their platform at Golf Courses across North America. This win-win strategy provides golf course employees the opportunity to earn extra income and learn new skills, while giving Total e Golf the ability to provide more customer focused service.

"Customer service is our number one priority and with the launch of the Agency program we're able to offer better one-on-one service to our customers," said Mike Flannagan, President of Total e Golf. "The program not only helps our customers by allowing us to be there on site, but also provides a great opportunity for golf course employees to earn extra income in the off-season."

Total e Golf works with its Agents by marketing in their area to generate prospect golf courses. The Agent then sells and installs the software at the site. With full training provided, and use of advanced Plug and Play technology, installations are very quick and easy to do.

To learn more about the Agency program or to register, please visit our website www.totalegolf.com.

About Total e Golf:

Total e Golf is a fully-integrated software suite that gives golf course operators the ability to manage their operations to their total potential. Total e Golf delivers comprehensive business management solutions for numerous golf facilities including Wooden Sticks, Cardinal Golf, Golf North, and John Daly's Thundering Waters.
