

## Multi-course Operation Signs with Total e Golf's Fully Integrated Software Platform

*Total e Golf announces Tri Links Golf as the newest addition to the Total e Golf Community*

Toronto, Ontario November 12<sup>th</sup>, 2009 - Total e Golf is pleased to announce Tri Links Golf as their newest multi-course operator. With two beautiful golf courses, two separate clubhouses, multiple dining facilities, retail shops along with new housing development, Tri Links Golf has become one of the area's most exciting golf projects.

Tri Links Golf is a made up of two distinct golf courses located in the beautiful Wasaga Beach area. The Links at New England is a newly redesigned, 7100 yard championship course and Marlwood Golf and Country Club, originally 9 holes built in 1928, now boasts 18 fun golf holes. Both courses are very popular with locals and tourist alike due the mix of scenery, challenge and playability.

After using a few independent systems over the last few years, Tri Links Golf General Manager Marc Ray felt it was time to invest in a fully integrated product that could help him and his staff manage their facilities more effectively. "Total e Golf was a great choice for us. The technology and flexibility of the platform has really allowed us to save a lot of time and energy while providing our staff with a lot of new opportunities. We've been capturing a tremendous amount of information on our membership and also our public golfer and this really allowed us to be more creative with our golf offerings. Being multi-course and a semi-private and seeing what the system has done for us, I would highly recommend any golf course looking for new software to give Total e Golf a call."

"Tri Links Golf is a wonderful organization. With a growing membership along with lots of league and public play, they really needed a system to keep up with their day to day activities but also provide them with information that would allow them to make informed decisions in the future. I believe Tri Links Golf has positioning themselves to be the leaders in the area for years to come," said David Spylo, Director of Golf Operations at Total e Golf.

About Total e Golf:

Total e Golf is a fully-integrated software suite that gives golf course operators the ability to manage their operations to their potential. Total e Golf delivers comprehensive business management solutions for numerous golf facilities including Cardinal Golf, Golf North, Wooden Sticks, and John Daly's Thundering Waters.
