

Remington Parkview Expands Their Total e Golf Platform

The popular, 36-hole public golf course and event facility adds Events Management and Hospitality Management solutions to their operations

Toronto, Ontario November 5th, 2009 - Total e Golf is pleased to share another client success story. Remington Parkview Golf and Country Club have implemented Total e Golf's best in class Events Management system and latest Hospitality Management solution.

Remington Parkview Golf and Country Club is a popular 36-hole facility located in Markham, Ontario. After opening for play in 1960, Remington Parkview quickly became one of the Public Golfer's favorite facilities due to its convenient location, fair pricing and excellent conditions over its two diverse golf courses.

After making a significant investment in updating their clubhouse this season to help expand their events business, Mike Begley, General Manager was ready to implement two more important software modules from Total e Golf. "The Events Management and Hospitality solutions effectively improve our staff communications and customer service. These tools really helped our staff become better organized, more efficient and focused on servicing our customers better," Mike says.

"After seeing firsthand the upgrades they made to their clubhouse this past off-season, we were very excited to work with Remington's staff and help them make these operational improvements," says David Spylo, Director of Golf Operations at Total e Golf, "Remington is a great example of a Total e Golf client who started with a small investment with a few software modules and was able to easily expand as their business grew."

About Total e Golf:

Total e Golf is a fully-integrated software suite that gives golf course operators the ability to manage their operations to their total potential. Total e Golf delivers comprehensive business management solutions for numerous golf facilities including Cardinal Golf, Golf North, Wooden Sticks, and John Daly's Thundering Waters.
